PATENT APPLICATION
Serial Number: 08/839,161
Art Unit 3634

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

November 11, 2004

In re Application of: W. P. Newton et al.
Serial No. 08/839,161
For: Support System for Laterally Removable Sash
Examiner Gregory Strimbu
Docket No. RCAL-5

INTERVIEW SUMMARY

HONORABLE COMMISSIONER OF
PATENTS AND TRADEMARKS
PO Box 1450
Arlington, VA Alexandria

In a telephone interview with the examiner, the undersigned pointed out that the previous office action of July 12, 2004 was not final and expressly stated that it was not final so that the response to that office action filed on September 2, 2004 should be fully considered.

Examiner Strimbu agreed that this was the case and said that he would consider the response fully.

The response filed September 2, 2004 includes an invitation to the examiner to call applicant's attorney for any questions about the claims or the cited art. Applicant's attorney believes that the response puts the claims in condition for allowance and again invites the examiner to call for any question on this.

Respectfully Submitted:

By: E. S. Stephens
